Request for Proposals for Janitorial Services to Head Start Programs

Staff Ranking of Janitorial Proposals

The Janitorial Services RFP outlined eight Groups of school locations and kitchen facilities for which proposals could be submitted for evaluation. After careful consideration of each proposer's prior janitorial experience, size and structure, qualifications of staff, responsiveness and fees, the evaluation committee ranked each proposer within each Group. Groups were evaluated independently from other Groups.

The ranking results are listed below for each Group. The Executive Director or designee will enter negotiations with the top three highest ranking proposers in each Group. Final recommendations will be presented to the SETA Governing Board on April 27, 2017.
