2. Approval to Purchase Agency Insurance for General Liability, Vehicle Liability, Umbrella, Errors and Omissions and Student Accident

Ms. Loretta Su introduced Mr. Ken Urrutia of Arthur J. Gallagher. Mr. Urrutia reviewed the reports provided to board members showing the detailed marketing done to prepare the quote. The summary document was reviewed. Through the marketing efforts the best option is to remain with Philadelphia Insurance as they have been a good market partner. The agency went through and reviewed the building values and found that the values did increase so the majority of changes are due to building value increases. There was actually a reduction in total premium. The Directors and Officers quote went up by 6% because of the high number of claims. This was due to the number of claims, not the severity.

Mr. Nottoli arrived at 10:14 a.m.

Mr. Urrutia reviewed some optional coverage. He recommended increasing the umbrella coverage to \$20 million for an additional \$8,000 premium. He also recommended purchasing Cyber liability for an additional \$16,500 premium.

The agency is now moving forward with a couple of RFPs; this is the first of two RFPs with a second coming in December for approval. This particular RFP requests specific types of services for start-ups and small businesses.

Mr. Schenirer is excited and this is a good opportunity for the agency. The city just distributed \$1 million in innovation grants and hopes that there will be some alignment. The City received 128 applications and 15 were funded.

Mr. Nottoli asked how the Slingshot name came up. Mr. Kim stated that this is a statewide initiative. The idea behind this is initiative is to think of an idea that is outside of the box, innovative, moves the needle, and slingshots you forward.

Moved/Schenirer, second/Kennedy, to approve the Release of a Request for Proposals for Project Slingshot – Capital Region. Roll Call Vote: Aye: 4 (Kennedy, Nottoli, Schenirer, Scherman) Nay: 0 Abstentions: 0 Absent: 1 (Warren)

ITEM II-D-CONSENT

CONCURRENCE WITH THE SACRAMENTO WORKS BOARD TO APPROVE THE TRANSFER OF WORKFORCE INNOVATION AND OPPORTUNITY ACT (WIOA) DISLOCATED WORKER FUNDS TO ADULT FUNDS, PROGRAM YEAR (PY) 2016-17, AND AUTHORIZE STAFF TO SUBMIT A REQUEST TO THE STATE OF CALIFORNIA, EMPLOYMENT DEVELOPMENT DEPARTMENT

BACKGROUND:

This item addresses the transfer of Workforce Innovation and Opportunity Act (WIOA) Dislocated Worker funds to Adult funds for Program Year (PY) 2016-17. WIOA, signed into law July 22, 2014, allows Local Workforce Development Boards (LWDBs), with approval from the Governor, to transfer up to and including 100 percent of the funds allocated for Adult and Dislocated Worker programs in order to maximize customer service and provide local boards with greater flexibility to respond to changes in their local labor markets and the demonstrated needs of each unique population. WIOA funds transfer limitations can be found in WIOA, Section 133(b)(4).

Each year, approximately 30 percent of eligible dislocated workers are served under SETA's adult funding stream. By alleviating SETA staff of the labor-intensive eligibility, data collection, accounting and reporting procedures required when serving customers under the dislocated worker funding stream, more effort can be focused on training and job development services.

Consistent with the State of California, Employment Development Department's (EDD) Workforce Services Directive WSD15-23, Transfer of Funds – Adult/Dislocated Worker Programs, issued on March 29, 2016, staff is recommending that the Board authorize the transfer of 63 percent of SETA's total WIOA dislocated worker formula allocation to the adult program for PY 2016-17.

The amount of dislocated worker funds to be transferred to the adult allocation for PY 2016-17 will be \$2,319,181. Before effecting transfer, SETA will obtain written approval from EDD, Workforce Services Division, which has been delegated authority to act on behalf of the Governor.

RECOMMENDATION:

Concur with the Sacramento Works Board to approve the transfer of \$2,319,181 in WIOA dislocated worker formula funds to the WIOA adult program for PY 2016-17, and authorize staff to submit a transfer request to the State of California, EDD.

PRESENTER: Michelle O'Camb

BACKGROUND:

Over the course of the last few months, the Agency has been negotiating with the current landlord (McCuen Acoma Street Investors, L.P.) for a new lease of the approximately 7,885 square feet of space occupied by the Children and Family Services Department for its on-site Head Start Early Learning program at 925 Del Paso Boulevard. ITEM III-B-1-ACTION

APPROVAL OF COMMUNITY SERVICES BLOCK GRANT FUNDING EXTENSION RECOMMENDATIONS FOR PROGRAM YEAR 2017

BACKGROUND:

SETA's delegate agreements with Community Services Block Grant (CSBG) funded program operators permit SETA to extend the agreements for an additional year, ending on December 31, 2017.

SETA's estimated planning allocation for program year 2017 is \$1,758,773. After setting aside funds for program staffing, direct customer supports and administrative costs, staff recommends allocating \$877,881 for CSBG direct services by contracted partners.

The recommendations include CSBG Discretionary funds for Safety Net services provided by WIND Youth Services to homeless youth. Staff is recommending extending WIND Youth Services with a combination of CSBG formula and discretionary funds. The actual combination of funds will be dependent on the amount of unspent CSBG discretionary funds available as of December 31, 2016.

SETA's Community Services and Fiscal staff have conducted a thorough evaluation of CSBG program operator performance through September 30, 2016. Staff has determined that the majority of CSBG program operators have been performing satisfactorily and some have exceeded outcome goals and/or service levels as prescribed in their subcontracts. Conditions causing some program operators to perform below planned service and expenditure levels have been evaluated and technical assistance is being provided.

Staff recommends extending all CSBG delegate agreements for an additional year under the same terms, conditions, and funding amounts as indicated on the attached chart, contingent upon program performance. Staff also recommends maintaining the consultant services of Daren Maeda, Director of Linkage to Education, at the same funding level allocated in the current fiscal year, \$30,000.

The Community Action Board approved these funding extensions at their November 9, 2016 meeting. Staff will be available to answer questions.

RECOMMENDATION:

Approve the following staff recommendations:

- 1. Extend all CSBG subcontracts for an additional one year term, contingent upon satisfactory program performance.
- 2. Maintain Daren Maeda as a SETA consultant for an additional year at \$30,000.

ITEM III-B-2-ACTION

APPROVAL OF THE WORKFORCE INNOVATION AND OPPORTUNITY ACT RESOURCE SHARING AGREEMENT AND AUTHORIZE SETA'S EXECUTIVE DIRECTOR TO NEGOTIATE CHANGES SUBJECT TO LEGAL COUNSEL APPROVAL

BACKGROUND:

Under the Workforce Innovation and Opportunity Act (WIOA), Local Workforce Development Boards (LWDB), with the agreement of the Chief Local Elected Official (CEO) are responsible for entering into a Memorandum of Understanding (MOU) with specified One-Stop Required Partners that provide programs or activities within the local area.

In January, the California Employment Development Department (EDD) released Directive WSD15-12, WIOA Memorandums of Understanding, providing guidance on the development of MOUs and a sample MOU Template that local areas could adapt for their purposes. The Directive separated the MOU development process into two (2) phases: Phase I-Service Coordination and Phase II-Shared Resources/Costs. Phase I was to be completed no later than June 30, 2016, while Phase II would be separately negotiated and was to be completed by December 31, 2017.

On October 16, 2016, EDD released Draft Directive WSDD16-09, WIOA Phase II Memorandums of Understanding, providing guidance on shared resources and costs, and a sample template that local areas can use as they work through the negotiations process. The Directive specifies the requirements for the sharing of One-Stop Center infrastructure and other system costs, and accelerated the Phase II timeline to require that all cost/resource sharing agreements be executed and submitted to EDD **no later than June 30, 2017**.

Staff, with the approval of the respective legal counsels for the Sacramento Works, Inc. (SWI), Sacramento's LWDB, and the SETA Governing Board, have prepared the draft Resource Sharing Agreement (RSA) (sent under separate cover) for the Sacramento Workforce Development Area based on the sample template provided by EDD. Beginning in November 2016, staff will be convening a series of meetings with all One-Stop Required Partners to negotiate the specific RSA terms.

It is anticipated that the overwhelming majority of One-Stop Required Partners will execute the attached draft RSA; however, to ensure that the SWI is able to comply with the requirement of executing RSAs with all One-Stop Required Partners, staff is

ITEM III-B-3 - ACTION

APPROVAL TO RELEASE A SECOND REQUEST FOR PROPOSALS FOR PROJECT SLINGSHOT - CAPITAL REGION

BACKGROUND:

In early 2014, the California Workforce Development Board (CWDB) announced its State-wide "Slingshot" Initiative designed to promote regional, innovative and risk-taking projects that "moved the needle" on big employment, education and jobs issues. The initiative was designed to regionally align local workforce development boards in preparation for the implementation of the Workforce Innovation and Opportunity Act's (WIOA) Planning Regions, and was founded on the key principles of industry engagement, integrated partnerships and shared outcomes.

As part of this strategy, the CWDB set-aside funds to develop innovative regional projects under which successful applicants would be funded up to \$1,000,000 for approved projects. While traditional workforce development projects involve federally prescribed customers, services and performance outcomes, the Slingshot Project allowed for a great degree of flexibility in all aspects of program design.

In October 2014, the SETA Governing Board approved the submission of an initial proposal to the CWDB to grow jobs and support economic mobility by creating an ecosystem of services and resources for entrepreneurs, start-ups and small businesses throughout the Capital Region, which includes four regional workforce development areas: SETA/Sacramento Works, Inc., Golden Sierra Job Training Agency, North Central Counties Consortium and Yolo County.

The initial application was submitted to access \$20,000, which funded the "Slingshot Design" phase, where regional collaborative research and development efforts by workforce, economic development, education and business partners led to the development of an Implementation Plan/Proposal ("Compact") that was submitted to the CWDB in January 2016 to secure the remainder of the \$1,000,000 set aside for the project. In August 2016, the CWDB approved the Compact and released the additional funds.

In November 2016, the Board approved the release of the first Project Slingshot Request for Proposals (RFP) which solicited the following services:

- Business Mentorship Services designed to match successful executives with less experienced startups within the same or similar industry sector.
- Maker Space/Incubator Services designed to support and/or expand physical space, including tools and equipment that will attract, connect and accelerate startups.

ITEM III-B-3-ACTION (continued)
Page 2

Staff is recommending releasing a second RFP based on the approved Slingshot Compact which includes the innovative concept of a regional, online, customizable, entrepreneurial resource database/software ("System") designed to connect entrepreneurs and business startups to the specific resources they need throughout the Capital Region. This System is a cornerstone of the approved Slingshot Compact and the Slingshot Budget includes a line-item of \$50,000 for this specific purpose.

Staff will be available to answer questions.

RECOMMENDATION:

Approve the Release of a second Request for Proposals for Project Slingshot – Capital Region.

ITEM III-B-5-ACTION

APPROVAL TO RELEASE A REQUEST FOR PROPOSALS FOR WIOA TITLE I YOUTH PROGRAM SERVICES FOR THE GALT AREA

BACKGROUND:

In June 2016, the Governing Board approved the WIOA Youth funding recommendations which included the Galt Joint Union High School District in the amount of \$95,640 to serve 20 Out of School Youth in the Galt area.

On October 12, 2016, SETA was notified by the Galt Joint Union High School District that it was returning its WIOA Youth funds.

On November 9, 2016, the SWI Youth Committee requested that staff seek approval to release a Request for Proposals (RFP) specifically to serve disconnected youth in the Galt area. On November 16, 2016, the SWI Board concurred with the Youth Committee recommendations.

The Sacramento Works Youth Committee is seeking a service provider to operate a WIOA Youth Program to serve youth residing in the Galt area which is defined as follows:

- South, Twin Cities Road
- North, Liberty Road
- West, Marengo Road
- East, Christensen Road

WIOA youth programs are intended to provide a rich array of age-appropriate services that target economically disadvantaged youth aged 16-24 who face barriers to staying in school or to finding stable employment.

The Sacramento Works WIOA youth program for the Galt area will provide services to Out-of-School youth aged 18-24.

The following program elements are considered required activities for Out-of-School youth:

- Alternative School Completion: All out-of-school youth that do not have a GED or high school diploma must enroll in services to attain either a GED or high school diploma.
- Work Experience: Paid or unpaid work experience that have academic and occupational education as a component of the work experience, which may include:
 - Summer employment opportunities and other employment opportunities available throughout the school year
 - ✓ Pre-apprenticeship programs

ITEM III-B-5-ACTION (continued) Page 2

- ✓ Internships and job shadowing
- ✓ On-the-job training opportunities
- Leadership development opportunities, including community service and peercentered activities (Activities can include: Community and Service Learning projects, participating on community boards or committees, training in decision making and determining priorities.)
- Follow-up services

The service provider will be responsible to provide access to services to youth in the targeted geographic area and through the Sacramento Works AJCC located in the targeted area. The WIOA service provider will be required to be located on-site at an AJCC on a frequent basis to provide access to the WIOA youth program for youth seeking services through the Sacramento Works system.

The amount of funding estimated to be available in this RFP is \$95,640 per year. This amount is subject to change upon final receipt of WIOA Title I Youth funding allocations. All subgrants will be awarded for an initial term beginning March 6, 2017 and ending June 30, 2018.

Oversight of the process for the selection of youth program operators is the responsibility of the Youth Committee. The recommendations made by the Youth Committee are submitted to the Sacramento Works, Inc. and the SETA Governing Board.

In order to assist Sacramento Works, Inc. and the SETA Governing Board in making funding decisions, a proposal evaluation committee comprised of staff, partners and Youth Committee members will evaluate each proposal and provide the results of their evaluation in the form of youth program funding recommendations.

Youth program funding recommendations will be based upon an evaluation of each proposal submitted and the applicant agency's past program performance.

RECOMMENDATION:

Approve the Release of a Request for Proposals for WIOA Title I Youth Program Services for the Galt Area.

Fiscal Monitoring Findings Page 2

Program Operator: Sacramento City Unified School District

Findings and General Observations:

The total costs as reported to SETA from May 1, 2016 to July 31, 2016 have been traced to the delegate's fiscal records. The records were verified and appear to be in order.

The Head Start program requires all delegate agencies to have 25% of all federal funds in matching contributions. The total expenditures for EHS-CCP Basic, T&TA, and Start Up were \$854,036.82. SCUSD was required to report \$213,509.05 in Non-Federal Share for the 2015-16 contract year. Due to a misunderstanding, SCUSD is under-reported by \$9,511.54. The grantee reported an in-kind match well in excess of the required match

Recommendations for Corrective Action:

Submit a Corrective Action Plan outlining the steps that will be taken to ensure the required Non-Federal Share will be met in future funding periods for the EHS-CCP program.

CDP is "Census Designated Place" - a recognized community that was unincorporated at the time of the 2009- 2013 5-Year American Community Survey (ACS).

Notes:

1) Data may not add due to rounding. All unemployment rates shown are calculated on unrounded data.

2) These data are not seasonally adjusted.

Methodology:

Monthly city labor force data are derived by multiplying current estimates of county employment and unemployment by the relative employment and unemployment shares (ratios) of each city at the time of the 2009-2013 American Community Survey. Ratios for cities were developed from special tabulations based on ACS employment, unemployment, and population Labor Statistics. For smaller cities and CDP, ratios were calculated from published census data.

This method assumes that the rates of change in employment and unemployment, since the 2009-2013 American Community Survey are exactly the same in each city and CDP as at the county accurate). If this assumption is not true for a specific city or CDP, then the estimates for that area may not represent the current economic conditions. Since this assumption is untested, caution should be employed when using these data.

Monthly city labor force data are derived by multiplying current estimates of county employment and unemployment by the relative employment and unemployment shares (ratios) of each city at the time of the 2009-2013 American Community Survey. Ratios for cities were developed from special tabulations based on ACS employment, unemployment, and population Labor Statistics. For smaller cities and CDP, ratios were calculated from published census data.

- Men's Activities Affecting Children Committee (MAACC): Mr. Calvin Sheppard stated that the attendees at the last meeting were talking about ideas on how to improve workshops. Instead of having them at the SETA location, perhaps move them to the various centers around the county. Try to get more fathers involved because sometimes transportation is an issue. Ms. Penelope Scott stated that they also reviewed the previous year and how the year went. They discussed how to make the BBQ better and get better participation.

- Maternal, Child and Adolescent Health Advisory Board: Ms. Blanks provided an overview of the last meeting.

VI. Other Reports

- A. Executive Director's Report: No report.
- B. Chair's Report: No report.
- C. Head Start Deputy Director's Report: Staff is working on a modification on duration extension application. SETA submitted an application to extend hours for pre-school kids. We may not be able to fund everything presented. The Office of Head Start released new Performance Standards. The last update was 1991. The revised Performance Standards are clearer and fewer in number and more flexible so programs can decide what is working in their community. There will be future discussions regarding the term length for board members. There has to be a clear delineation between Governing Body and Policy Council responsibilities. The impasse procedure hae never had to be utilized however updates will be forth-coming to align with new standards. Most of the Performance Standards will be in place in November with duration as one of the top issues over the next five years. OHS wants programs to extend their services for longer services either daily or over the year or both. They are expecting pre-schoolers to be provided services at 1,020 hours per year; this will require significant changes to our system. The duration grant is very important since in order to extend the services longer, teacher hours have to be extended as well. The Committees will work through the changes and bring to the board for final approval.

CHSA is hosting their annual conference in Sacramento. Mr. Tate will be the welcome speaker. Normally this is a conference where members are elected to attend but this year, all board members wishing to attend can do it either by attending the parent conference January 9-10, and/or the education conference January 11-13. Board members can register either by attending the conference and enjoy it, or to volunteer and work during the conference. Board members can attend at the parent conference and then volunteer at the education conference, or any combination that works best for their schedules.

- ✓ Monthly Head Start Report: Program Information Report: The reports were reviewed; one is for Head Start, one for Early Head Start, and the third for the Child Care Partnership. This is one of the few reports we post over the year. The data is by programs and shows county-wide totals. If we fall below the national average, the Federal government would require us to do a corrective action plan. We are always challenging ourselves when we do not achieve 100%.
- D. Head Start Managers' Reports
 - Lisa Carr Family Engagement, Home Base, and ERSEA Services: Ms. Carr reviewed the Program Information Report. SETA has a very good relationship with SCOE and their foster youth program; we work with them to provide services to foster children. A program is being developed with SCOE so if the kids are reunited with their parents, they will continue to receive Head Start services. Staff will continue to look at ways to reach out to the homeless population. The PIR is not reflective of those numbers but it will next year. It will include information countywide for homeless/foster youth children to ensure they receive services. Ms. Carr stated that starting November 7, teaching staff has to at least hold an associate teacher degree, or family development credential.

Mr. Tate asked what would happen to the enrollment of Head Start children when the minimum wage is \$15.00. Ms. Carr stated that Head Start's income guidelines are attached to the poverty level. Ms. Lee stated that at this time, the poverty guidelines are not proposed to change. Most programs are servicing around 20-25% of eligible children in their communities, showing that there are still many children to be enrolled who meet the poverty threshold. Staff is working hard to recruit families that are meeting the income guidelines. We will continue to recruit and when we do not have any under income eligible children, we will enroll over income eligible children as needed to stay fully enrolled.

- Robyn Caruso Program Support, Quality Assurance, and EHS-CCP services: No report.
- > Martha Cisneros Health, Nutrition and Safe Environments Services

✓ Changes To Immunization Laws For Children – Ms. Martha Cisneros: Ms. Cisneros reviewed the PIR area for her section. Hope to see an increase in the immunizations especially for home base. Head Start continues to be the highest in the state for immunization adherence.

Ms. Natalie Craig left the meeting at 11:05 a.m.

The dental providers have to apply to be a Medi-Cal provider. It takes between six to twelve months to qualify

- Karen Griffith School Readiness, Special Education and Mental Health Services: No report.
- E. Open Discussion and Comments: None.
- F. Public Participation: None.
- VII. <u>Adjournment</u>: The meeting was adjourned at 11:15 a.m.

<u>Head Start Monthly Report</u> <u>November 2016</u>

SETA Operated Program

Program Operation

Welcome November! SETA Head Start finished off October with the completion of their first round of Desired Results Developmental Profiles (DRDP). Teachers will be diving into the data collected from the assessment within the next couple weeks. They will use the data to inform their instruction and meet with families to discuss individual student goals. CLASS observations are underway in preschool and Early Head Start classrooms. Many of our SETA Teachers will be participating in next module of the Teaching Pyramid Training. Those participating have been through the first round of coaching, and have started to implement the research based strategies into their classrooms. Train the Trainer TLC for Site Supervisors kicked off in October, the group will come together again in November. Throughout this month the TLC group is working on brainstorming ideas of effective classroom practice, and the framework for effective everyday practice. The site supervisors will bring the strategies, materials, and activities back to their sites and collaborate with their staff.

Elk Grove Unified School District

Education Services Update

The agency-wide results from the Desired Results Developmental Profile 2015 (DRDP 2015) used by teachers to assess their students' social and academic strengths and weaknesses during Fall 2016 was presented by Gerri LaCalle and Karin Nakahira-Young, PreK instructional coaches, at the teacher in-service held on October 28. 2016. Agency-wide results of the assessment identified that all Head Start teachers need to focus

on teaching expressions of empathy, awareness of diversity in others, letter, symbol and print recognition, as well as fine motor skills and personal safety.

Teachers were provided the results of the DRDP 2015 for their individual classes. Time was allotted to discuss the results, develop their individual classroom plans, and develop individual student goals and action plans.

Enrollment

The Elk Grove Unified School District Head Start program is fully enrolled with 440 students in the program. Average Daily Attendance (ADA) for the month of October was 89%.

Disabilities Services and Mental Health Services Update

Our program educators and clerks have worked closely with Catherine Barbero, PreK social worker and with Dr. Theresa Gannon, PreK psychologist, to place students with an active IEP into the Head Start Program. There are 39 students with active IEPs being served which is nine percent (9%) of our Head Start student population.

Health Services Update

Files are being monitored by our program educators to assure that all students needing follow-up from their 45 day screenings for height, weight, and vision and hearing screenings are referred to a health care provider.

USDA Meals/Snacks

Head Start students were served 14,732 meals during the month of October. This month's Elk Grove Meals/Snack calendars are attached.

Fiscal Update

This month's Fiscal Report is attached.

Family and Community Partnerships Update

Family education activities are offered in conjunction with the School Readiness grant funded by First 5 California. Class offerings are dictated in part by the desires and needs of families expressed in a yearly survey and in part by the School Readiness grant. Parents are notified of classes at monthly meetings by our monthly newsletter and individually by teachers.

"Latino Family Literacy" workshops were held on October 4, 11, 18, and 25, at Samuel Kennedy Elementary and on October 5, 12, 19, and 26, at Charles Mack Elementary. These classes provide Spanish speaking parents with strategies for working with their children in the area of literacy and ways to establish a reading routine in their home. An average of eight (8) families attended the workshops at Samuel Kennedy Elementary. An average of ten (10) families attended the workshops at Charles Mack Elementary.

"English Family Literacy" workshops were held on October 4, 11, and 18, at David Reese Elementary and on October 5, 19, and 26, at Herman Leimbach Elementary. These workshops provide our English speaking families the same information on literacy and strategies as those provided in "Latino Family Literacy". An average of two (2) families attended the workshops at David Reese Elementary. An average of two (2) families attended the Elementary.

"Supporting Positive Behavior in Children" workshops were held on October 6, 13, 20, and 26, at Prairie Elementary School. The "Supporting Positive Behavior in Children" workshop provides information and support to families to promote their child's social/emotional development. An average of eleven (11) parents attended these workshops.

"Junior Amazing Reader", a workshop designed to help parents understand the importance of reading with their children and the link between reading with children and brain development, vocabulary development, and future school success, was presented in Ms. Hays State funded and Title I funded classes at Samuel Kennedy

Elementary School on October 20. These workshops took place in the classroom at the beginning of class in order to maximize parent participation. An average of fifteen (15) parents attended from each of classes.

Recruitment

There are thirty (30) students are on the wait list for the Head Start program.

New Performance Standards

The Office of Head Start released new performance standards in September, 2016. Performance standards were last updated in 1991. The PreK program is reviewing the new standards and is working to update their policies and procedures to ensure the program is in compliance. A significant change included in the new performance standards is the requirement that by August 1, 2019, a program must provide 1,020 annual hours of planned class operation over the course of at least eight months per year for at least 50% of its program. The entire program must meet this mandate by August 1, 2021. This will require that the Head Start classes in EGUSD are in session a minimum of six (6) hours per day. The PreK program has put together a committee comprised of administrators and teachers to begin exploring how it will meet this mandate and to explore other possible changes to the PreK program.

Sacramento City Unified School District

Health and Nutrition Update

For the month of October, Nurses Lisa Stevens, Lori Souza and Victoria Benson worked on completing their initial sensory screenings for preschoolers who had attended school since the beginning of the school year. When out at the various preschool sites, class files were reviewed by the preschool nurses to check for dental status and follow-up along with document completion for the health section of the class files.

During the first Health, Nutrition and Safe Environments Committee meeting in October, the Corrective Action Plan for Health was reviewed with status reports from the Data Entry Specialist, Health Clerks and Nurses in an effort to ensure the areas of concerns were being addressed in this new school year. Child Development Department Director, Jacquie Bonini, initiated a monthly newsletter for all Child Development staff members. Nurses Lori Souza, Victoria Benson and Health Coordinator Tammy Sanchez have each contributed material for the Health Section of this newsletter.

The Preschool Nurses and the Health Coordinator attended SETA's Head Start Delegate Kick-Off on October 27th. Nurse Benson noted that this year's motto "Onward and Upward--Soaring to New Heights" was an "uplifting" motto for the delegate agencies and very appropriate for the Region 9 updates presented by Dow-Jane Pei, Program Specialist, OHS, Region 9. With respect to health, Dow-Jane Pei shared that there would be new language around dental exams. It was also interesting to note that there were plans to modify the HR section of the performance standards to strengthen staff health and wellness requirements.

All Head Start Preschool Nurses have been involved with review and clearance for the new immunization requirement for Head Start staff and classroom volunteers. New criteria for what constitutes a volunteer were also shared at the Delegate Kick-Off meeting on October 27th.

Several members of our Health Team participated in the 3rd Annual Fall Festival for Head Start and State preschoolers on October 25. This event was a huge success, despite the threat of rain, and had the biggest festival attendance thus far. First Five Nurse Paula Kuhlman manned a health-related Guessing Game station which focused on identifying common fruits such as an apple, banana, kiwi and pineapple by just feeling its texture.

In anticipation of the upcoming holidays, it was felt that this was an appropriate time to review Child Development's *No Outside Food Policy*. Health/Nutrition Coordinator, Tammy Sanchez, reviewed the policy with parents at the October PC Meeting and asked Parent Representatives to bring back this important

reminder to the other classroom parents. Child Development Director, Jacquie Bonini, took the opportunity to review the policy with teaching staff at October's Professional Learning; reminding them that keeping students safe is our number one priority.

Education

Professional Learning for the month of October included the following training topics:

Safety and Supervision Policy:

- Staff was provided with the Child Development Supervision Policy.
- Jacquie Bonini, Child Development Director, went over the policy and articulated with the teachers the importance of following safety and supervision guidelines.
- Teachers were reminded to review the policy and their written individual plans.

Nutrition Policy:

- Due to the upcoming holiday season, the Nutrition Policy was provided to teachers.
- Staff was reminded about the SCUSD Child Development Department of the no outside food policy.
- The policy is in place to protect children from various allergens.
- All food must be provided by our Nutrition Department.

Child Abuse Prevention/Identification and Reporting presented CAPC:

- A comprehensive child abuse prevention and reporting training was provided to all staff.

Disabilities and Special Needs Referral Process:

- Jennifer Osalbo, Disabilities Coordinator, went over the process and referral follow-up for children potentially identified as having special needs.

Mental Health/Behavior Support – SST Process for Behavior Support and Follow-up:

- Social Workers presented the SST Process for Behavior Support and follow-up process.
- A heavy emphasis was given in documentation and follow-up.

Family & Community Engagement

The Family and Community Engagement (FCE) staff has been following up with families on the Family Worksheets they completed. FCE staff also organized the 3rd annual Fall Festival with over 200 families attending. FCE staff is also training Teaching staff for Family Partnership Setting Goal Sessions that will be occurring in November.

Mental Health

In the October Professional Learning, Social Workers trained staff on the Behavioral referral process, which helps ensure that staff are utilizing Teaching Pyramid Framework practices in supporting children who display challenging behavior.

Authorized and 2nd year Apprentice Coaches are conducting coaching sessions with staff who are a part of the County Wide Collaboration Teaching Pyramid Cohort 6 and the Internal Collaborative Cohort between SETA and SCUSD.

Social Workers are conducting Teaching Pyramid introduction workshops at the classroom site level.

Social Workers have also been recruiting parents for the Family Engagement Fun night beginning on November 3^{rd} . The first workshop will be the Teaching Pyramid for Families, Session 1 – Making the connection.

Early Head Start & Home-Base

Early Head Start had their annual Home-based Socialization/Harvest Festival. The Home Visitors did an incredible job organizing an event that the families will remember. The theme of the Harvest Festival was "A trip to the farmer's market". The families got to participate in activities such as: smelly jars with different fragrant produce scents, banana cutting, sweet potato mashing, pumpkin stem printing, seed planting, and a bean bag toss.

There were booths for families to get information from local agencies such as: Black Mother's United, The Charles A. Jones Skills Center, The Health Education Council, and The Native American Health Center. The Native American Health Center even provided dental varnishes to the children! Once the families completed each of the booths they were able to go to the Big Red Barn photo backdrop and have a photo taken.

Children and families were very excited pick their perfect pumpkin from the pumpkin patch. Davis Ranch has been a major contributor for donating the pumpkins for the past 3 years. We are so grateful for their support.

There were 45 families that showed up to the Harvest Festival. The families were educated on the importance of taking care of their health through proper oral hygiene and healthy foods, and to many of the resources that are available to them in the community.

The Home-based Program participated in a STEM training. They received a STEM kit that they were able to take and integrate what they have learned into their lesson plans.

The Teaching Pyramid Cohort Teams finished up their coaching sessions with Ruth Rodriguez this month. There have been many effective changes implemented in the classroom environments as well as teaching pyramid strategies being implemented by the staff in both classrooms. The intention for the team is to check in with their resource teacher and do the inventory of practice tool throughout the year, so we can keep the Teaching Pyramid teachings alive in the classrooms after the trainings are complete.

Special Education

SCUSD Child Development Department has served 101 preschoolers with IEPs and 16 infants/toddlers with IFSPs. SCUSD is streamlining our full team referral process to be more like K-12 and include Student Success Teams (SSTs). During an SST the entire support team is invited, including the parent and teacher, so we can all get on the same page about accommodations and how to support the child to be successful in the classroom.

San Juan Unified School District

Education Services Update

Early Head Start teachers have finished their first DRDP assessment. They are using the DRDP Tech system to complete these assessments. Head Start teachers have also finished their first DRDP assessment. They are beginning their second year of using the DRDP Tech system. Thirteen Head Start teachers are piloting the Learning Genie program for collecting anecdotal evidence. This program also facilitates parent involvement through the sharing of daily information in the form of anecdotal notes, photos and videos of their children during the day. Head Start teachers began the Trees study which will continue through November. The math focus was Cardinality, Counting and the beginning stages of Constructing Sets with 1-5 objects.

Disabilities Services Update

Care management continued to slow down for both Early Head Start and Head Start programs through the month of October. Many of the students that were referred for further assessment now have IFSPs/IEPs, and services are well under way. The new Early Head Start Monthly Special Education Communication form is working well and helps to ensure that documentation for those students with IFSPs stays up-to-date. The Disabilities Content Specialist has been reviewing the new Performance Standards and preparing for the new changes and updates.

Mental Health Services Update

The Mental Health Therapist participated in parent-teacher conferences to both address specific socialemotional needs of identified children as well as to provide community resources/mental health referral information. The Mental Health Therapist continued to provide workshops for parents and staff throughout the program.

Health Services Update

The health tracking and Child Plus data entry for Early Head Start was divided between five different Health Assistants in mid-October. Each Health Assistant has acquired one Early Head Start Center and one to two Home Based teachers. For the next phase of Cross Programs assignments, the EHS Nurse has spent time doing individualized training based on Health Assistant's needs. In addition, the EHS Nurse continued to provide health consultations to teachers and families. The EHS Nurse also worked collaboratively with the HS Nurse and Content Specialists to integrate services, learn the new Performance Standards and start incorporating changes into practice.

Health reviewed files for the Head Start students entering the 2016-2017 school year. The review is comprehensive to include students' health, nutrition, and immunization status. Child Plus data entry for children enrolling in the 2016-2017 school year is up-to-date and is completed on a continuous basis. The School Nurse wrote Individualized Student Health Plans for those who have health concerns. The School Nurse also wrote Individualized Education Plan (IEP) reports and attended meetings.

Nutrition Services Update

The CACFP started their 2016-2017 fiscal year. Preschool, Infant/Toddler and School-Age have all had their annual CACFP training. The San Juan USD CACFP review was completed and the Summation Report will be submitted to CDE on November 1st. Site Monitoring has begun for all sites and will be complete in mid-November. At the Annual CACFP Conference, staff completed the mandatory training in CACFP Procurement and started training on the new mandates that will become mandatory in October 2017.

Family and Community Partnerships Update

In collaboration with First 5 and support from the Kiwanis Club of Carmichael and the San Juan USD Family and Community Engagement department, several preschools enjoyed festive fall celebrations to promote student learning. Howe Ave. Head Start/State Preschool held their annual Literacy Harvest Fair on October 14th and had over 70 participants. General Davie Jr. Primary Center had over 100 participants at their Literacy Harvest Fair October 28th, an event where each child received a book, a family picture with Harvest Fair Backdrop, opportunities to read as a family, make crafts, receive fresh fruits and vegetables, exchange outgrown clothing with other families, and take home a pumpkin. Marvin Marshall Head Start/State Preschool held a Harvest festival on October 27th which included numerous family activities and was also well attended. Families have also attended "You Make the Difference", "Latino Literacy" and "Setting Limits" parenting classes in the month of October.

New and returning representatives were seated on the San Juan USD Head Start/Early Head Start Policy Committee at the October 20th meeting. Each representative received a new 2016-2017 Policy Committee binder to take back to the classroom with information from the meetings to share with the families throughout the school year. Resources from WarmLine Family Resource Center about support for families with children with disabilities was shared. The new By-Laws were approved and two Past Parent Representatives were elected. Cecelia Laban of the Mutual Assistance Network provided their most recent Calendar for the Arcade Community Center and Harvest Fair Community Event information.

Program Support/Staff Training Update

Early Head Start teachers received an Infant/Toddler Education binder at the October professional development training. Staff did a walk-through of the different sections of the binder, and were then asked to give feedback on the forms provided in order to assist in future revisions and general use. The October training also covered the new Parent Contact form, which is where parents will sign for all conferences and home visits. The annual CCFP training was presented in October and covered reminders for best practices around food services for children.

Head Start teachers and assistants received part 2 of the Guided Language Acquisition Design (GLAD) training. At this training, teachers shared the GLAD strategies which they have found effective for their

practice in classrooms. Teachers received additional training later in October with John Paul as he was livestreamed teaching a lesson that focused on informational text and demonstrated GLAD strategies during a realoud.

Fiscal Update

October's reconciliation has been completed and San Juan USD is right on target. An e-mail will be going out to Administrators to provide spending priorities for orders so classrooms continue to meet required performance and licensing requirements. Parent Volunteer Hours for In-Kind decreased in 2015-2016, and this trend continues. A request for teachers to recruit more parent volunteer hours will be presented at the next PC meeting in November. Salary and Benefit adjustments for 1st Interims have been completed with the implemented changes for Fiscal Year 2016-2017. The changes that were made are still within target budgets.

Safe Environments Update

An informative PowerPoint presentation was used to provide training on the Safety and SUPER vision procedures to those teachers who are new to the program. The second month's classroom and playground checklists have been completed and submitted. Tracking sheets are being used to keep track of the paper work turned in concerning safety procedures. Work orders have been created to support repairs and/or safety needs in the classrooms.

Twin Rivers Unified School District

Highlights: challenges/successes, enrollment and attendance, on-going monitoring, DRDP-r, self assessment, PIR, program highlights and significant program changes, expansion updates, etc.

Events

All three TRUSD Head Start sites participated in the annual Red Ribbon Week celebration of saying no to drugs and living healthy lifestyles. The School Social Worker provided classroom lessons on drug free living, healthy bodies and the dangers of tobacco. The week-long event included spirit days in which students "Teamed up against drugs" and wore their school shirts/athlete jerseys, "put a cap on drugs" with their hats, "socked it to drugs" with crazy/mismatch socks and pajamas "to dream of a drug-free world". On Thursday of Red Ribbon week, students from all three sites also participated in our annual Fall Festival. The Festival included an opportunity for students to pick their own pumpkins from the school "pumpkin patch", participate in carnival games and read Halloween books with our favorite librarian, Mr. Tim. Parents volunteered during the event by assisting with the carnival games and also were judges for the Red Ribbon doors throughout the school. Fun was had by all attendees!

Professional Development

On October 31st, the Head Start staff participated in the district wide Professional Development training day. The focus of the training day was Preschool Glad (Guided Language Acquisition Development). From two dynamic facilitators, participants were provided with an overview of GLAD philosophy and strategies to increase verbal language development for young learners. The participants will also be participating in classroom coaching/training with the GLAD facilitators in early Spring in which hands-on support with their students will be provided. Teaching staff will receive one full day of this hands-on coaching from the GLAD experts.

Components

The program is excited about the addition of Tashamarie Brewer to the Community Liaison team. Ms. Brewer is a previous teacher assistant at the Oakdale preschool site so is very familiar with the Head Start program. She joins the team with tremendous experience with young learners and a love for working with families. The other Community Liaison remains on maternity leave until possibly the end of the school year pending approval from the TRUSD Board of Trustees. A long term sub continues to work with the Community Liaison team during the maternity leave. The team continues meeting with parents individually to complete the goal setting forms as well as provide resources/services as requested by families.

Gov. Board

The Community Liaisons continue to track blood lead results, hemoglobin and lead risk. The inputting of Childplus info also continues for the Liaison team.

All students participated in hearing, vision and dental screenings with the Health Component Leaders throughout the month of October. The Health Assistant and Nurse continue the reviewing of students' files for medical concerns as well as data inputting into the Childplus database.

Our School Social Worker/Counselor is providing in classroom support to students having challenging behaviors and difficulties adjusting to the classroom environment with the assistance of our 3 BSW and MSW interns from CSUS. Classroom observations to assist with intervention strategies and behavioral techniques for all classrooms are also being provided by the Social Worker. The multidisciplinary team finished the pre-intervention meetings for Oakdale, Rio Linda and Room 10 to discuss all students and provided teaching staff with strategies for academic, behaviors and social/emotional development. Weekly 2nd Step lessons continue with the School Social Worker in all classrooms to ensure the students' social and emotional competence is being developed.

The Head Start programs has two Speech and Language Pathologists (SLP) who has begun servicing our students with speech and language IEPs. They are also working on screening students who failed the communication section of the ASQ assessment to determine if further testing is needed. Currently we have 17 students with IEPs and will hopefully meet our 10% level no later than late December 2016.

The Education Component Leader continues observations to assist with academic strategies and teacher coaching and support. CLASS observations for all classrooms as well as ECERS assessments are also being completed by the Education Coordinator.

The ERSEA Component Leaders and Community Liaisons finished checking all of the students' files and creating the new wait list binders for this school year. All three sites continue to be fully enrolled. The Program Design and Management component leaders has finished the collection of staff immunizations for the requirement per SB 792.

Policy and Parent Committees

The new Policy Committee group for 2016-2017 was seated on October 10, 2016. Most classroom has at least one classroom representative attend the first meeting and teaching staff are continuing to recruit for additional parents. The October meeting was held at Rio Linda on October 24th and on October 25th at Oakdale. Both sites had parents attend the meetings and they were provided all of the necessary reports including the Fiscal report, meal counts, Special Ed report as well as Enrollment and Attendance report. All sites will have meetings in November before the Thanksgiving break.

Parent Trainings

The classroom parent meetings for October was hosted by the Sacramento Food Bank for parents to get information about local resources for food supplies. A representative from the agency reminded parents of the importance of healthy eating and ways to spread their limited financial resources for meals.

Fiscal

The HS Budget Analyst completed the October 2016 Fiscal reports which will be given to the PC group and Board of Trustees at the November meeting.

<u>WCIC</u>

Enrollment

During the month of October 2016, WCIC's Enrollment was maintained at 100%.

C

WCIC's 2016-2017 Elected Policy Committee Delegates and Alternate Delegate

WCIC's PC Delegates and Alternate Delegate were elected on October 19, 2016: Reginald Castex and Vocheri Thomas, Delegates; and Michelle Brown, Alternate Delegate.

Trainings

WCIC/Playmate Head Start Program's parents and staff received a Lead Poisoning Training by Ms. Lea Huffman, Health Education Assistant from County of Sacramento. Ms. Huffman's presentation on Lead Poisoning was on October 19, 2016. The presentation provided information on how to protect children from lead and to teach parents how to prevent lead poisoning. Lead poisoning can cause extreme side effects in small children, especially when children are exposed to lead. Many parents are not aware that lead can be found in toys and in foreign foods and candies from Mexico. Children who are exposed to lead learning may be affected, cause nerve damage, lower IQ, and even slower physical growth. If you feel that your child has been exposed to lead poising it is best to contact your doctor and they can easily perform a blood test. Parents must understand that lead is found in toys, children's jewelry or in foreign pots and dishes. Items such as clay pots or dishes from China and other countries can be made with lead. Before using these items, people can easily purchase a lead poisoning kit. Some foods imported from Mexico can contain lead or dry fruits can also be tainted. Homes built before 1978 are more likely to have lead in it. The most common cause of lead poisoning today is old paint with lead in it. Many older houses and apartment buildings have lead-based paint on the walls. Toddlers explore the world by putting things in the mouths. Children who live in older buildings are at especially high risk of lead poisoning. Children can get lead poisoning by chewing on pieces of peeling paint or by swallowing house dust or soil that contains tiny chips of the leaded paint from these buildings. Lead can also be in air, water and food. Lead can also be found in food or juice stored in foreign-made cans or improperly fired ceramic containers.
