Mr. McGrew stated that they are in the process of promoting themselves in the manufacturing industry. There is a contact through Valley Vision.org website that will go to Dean Peckham and ultimately there will be a separate website.
- Presentation – Valley Vision: Future of Work in the Capital Region: Evan Schmidt has been working with SVMI and working to streamline processes and the way employers coordinate; it is part of best practices deployed across centers. One objective is to frame four regional forums focused on the impact of technological changes in the economy and workforce. One research finding included that the higher the occupation is digitalized, the higher the salary. Their next step is to circulate an online survey to help prioritize actions that have been identified.

III. Discussion/Action Items

- B. Continued Discussion on the Role of the Sacramento Works Board

Dr. Nye stated that this board needs to identify priority sectors where we want to invest our resources.

Mr. Lege' stated that we have to prepare people to know how to use a computer; basic skills that reach across various industries is crucial.

Ms. Lisa Clawson stated that everyone needs to have digital literacy because people cannot get a job without some computer knowledge.

Christine Laster from Siemens stated that digital literacy is crucial and provided an example of how it affected employees at Siemens.

Mr. King stated that this discussion will continue in July. By continuing the discussion, it provides us an opportunity to think about it and work with Ms. Kossick and staff about what conclusions we want to draw.

- A. Approval of Funding Recommendations for the Workforce Innovation and Opportunity Act (WIOA), Title I, Youth Program, Program Year 2018-2019

Mr. Cunningham asked that anyone employed by, part of a board of directors or shareholder for, those organizations considered for funding, needs to declare the conflict and leave. No one left.

Ms. Terri Carpenter stated that the funding was originally procured in 2016; this is the second year of funding extensions.

Staff and the Youth Committee recommend Option A. This will be done by reducing the youth initiative funding and the remaining money will increase the WEX salaries that will increase in January due to the increased minimum wage.

Speaker before the Board:

- Ken McCulloch, City of Sacramento

Ms. Carpenter stated that Goodwill and CHD were the two new providers this year. The City of Sacramento has been a youth provider for about 10 years. Ms. Carpenter stated that we did a special procurement for the Galt area seeking providers to serve high poverty areas. The Youth Committee will continue to focus on those same high needs areas.

Moved/Gordon, second/Nye, to approve Option A – fund CHD for 19 slots by eliminating funding for Youth Committee Initiatives and decreasing the amount allocated for estimated WEX wage increases. In addition, approve the stipulation that all funding recommendations are contingent upon satisfactory year-end program performance reviews and the receipt of the final WIOA funding allocations. If the WIOA Title I Youth funding allocation for PY 2018-2019 is less than the current PY2017-2018 allocation, then subgrantee contract amounts will be reduced proportionately.

Roll call vote:

Aye: 16 (Clawson, Conner, De Mers, Givans, Gordon, Gusman, King, Kossick, Legé, Louie, Morin, Nye, Onasch, Perez, Sasso, Wylie)

Nay: 0

Abstentions: 0

CDP is "Census Designated Place" - a recognized community that was unincorporated at the time of the 2011-2015 5-Year American Community Survey (ACS).

Notes:

- 1) Data may not add due to rounding. All unemployment rates shown are calculated on unrounded data.
- 2) These data are not seasonally adjusted.
- 3) N/A = Estimate created by Bureau of Labor Statistics

Methodology:

Monthly city labor force data are derived by multiplying current estimates of county employment and unemployment by the relative employment and unemployment shares (ratios) of each city at the time of the 2009-2013 American Community Survey. Ratios for cities were developed from special tabulations based on ACS employment, unemployment, and population

and Census population from the Bureau of Labor Statistics. For smaller cities and CDPs, ratios were calculated from published census data.

Monthly CDP's labor force data are derived by multiplying current estimates of county employment and unemployment by the relative employment and unemployment shares (ratios) of each CDP at the time of the 2011-2015 ACS survey. Ratios for CDPs' were developed from special tabulations based on ACS employment and unemployment from the Bureau of Labor Statistics.

This method assumes that the rates of change in employment and unemployment since the 2009-2013/2011-2015 American Community Survey are exactly the same in each city and CDP as at county level (i.e., that the shares are still accurate). If this assumption is not true for a specific city or CDP, then the estimates for that area may not represent the current economic conditions. Since this assumption is untested, caution should be employed when using these data.

CDP is "Census Designated Place" - a recognized community that was unincorporated at the time of the 2011-2015 5-Year American Community Survey (ACS).

Notes:

- 1) Data may not add due to rounding. All unemployment rates shown are calculated on unrounded data.
- 2) These data are not seasonally adjusted.

Methodology:

Monthly city labor force data are derived by multiplying current estimates of county employment and unemployment by the relative employment and unemployment shares (ratios) of each city at the time of the 2009-2013 American Community Survey. Ratios for cities were developed from special tabulations based on ACS employment, unemployment, and population and Census population from the Bureau of Labor Statistics. For smaller cities and CDPs, ratios were calculated from published census data.

Monthly CDP's labor force data are derived by multiplying current estimates of county employment and unemployment by the relative employment and unemployment shares (ratios) of each CDP at the time of the 2011-2015 ACS survey. Ratios for CDPs' were developed from special tabulations based on ACS employment and unemployment from the Bureau of Labor Statistics.

This method assumes that the rates of change in employment and unemployment since the 2009-2013/2011-2015 American Community Survey are exactly the same in each city and CDP as at county level (i.e., that the shares are still accurate). If this assumption is not true for a specific city or CDP, then the estimates for that area may not represent the current economic conditions. Since this assumption is untested, caution should be employed when using these data.
